

## RECOMMENDATIONS FOR CITRIX XENAPP

# ALLPLAN 2017

### HARDWARE REQUIREMENTS

#### Minimum server setup for up to

##### 2 Allplan users:

- Intel Core i7 processor or compatible
- 32 GB RAM

#### Recommended setup for up to

##### 5 Allplan users

- 2 x Intel Xeon processor at least 3 GHz
- 64 GB RAM

#### Recommended setup for more than

##### 5 Allplan users

- You need a separate server for every 5 Allplan users. Please check that each server meets the requirements stated above.

### SOFTWARE REQUIREMENTS

- Citrix XenApp 7.7 / Windows Server 2012 R2 x64
- WIBU License server on the own Server
- At least Allplan version 2017-0-1

#### Notes:

- The performance of Allplan under Citrix depends, among other things, on the network performance and can be somewhat slower compared to local installations.
- You are advised to set the "Size of crosshairs" option to "Off" (cursor only).
- The Citrix mode "Application Streaming" is not supported.

### FURTHER INFORMATION

- Hardware recommended for Citrix servers varies depending on the Windows Server Edition you are using. You can find recommendations for these editions on the Microsoft website: [microsoft.com](http://microsoft.com)
- Detailed information on configuring, optimizing and running Citrix can be found on the Citrix Website: [support.citrix.com](http://support.citrix.com)
